# APPLICATION FOR DEVELOPMENT Procedures & Instructions

## NOTE: ALL PLAN SETS MUST BE FOLDED BEFORE SUBMISSION

Revised: October 15, 2009

1. Submit one (1) completed Jersey City General Development Application and one full size, signed and clearly sealed, stapled and **FOLDED** set of development plans, along with all application fees and supporting documents as described within the General Development Application instructions. Applicant will receive a signed “Receipt of Application” which only certifies that materials were submitted on a specific date and accepted by a specific member of the City Planning Division staff. This “Receipt” is not an indication of the “completeness” of submitted materials.
2. The applicant will receive a “Completeness Evaluation” within 45 days of receipt of the materials listed in Paragraph 1. above from the Division of City Planning. This evaluation will contain a Jersey City Development Case Number and identify the Review Planner assigned to your application. Please address all future correspondence relating to this application to the Review Planner and include the Case Number, the property address, and the Block(s) and Lot(s).
3. Upon notification by the Review Planner that the application submittals are ready to be sent to the Review Agents, the applicant will promptly submit one (1) additional set per Review Agent, of full size, signed and clearly sealed, stapled and **FOLDED** development plans bundled with an additional set of the full application documents and all supplemental information to the Review Planner for distribution to the Review Agents listed below. Each set of plans and documentation will be submitted in **individual, unsealed and unaddressed envelopes** of sufficient size to completely and neatly contain each package of documents. These envelopes will be delivered in a cardboard box(es) as needed. City Planning will then distribute the packages to the review agents through the city’s Messenger Service. The Messengers will be provided by City Planning with a Delivery Confirmation Signature Sheet for each particular application, which will be returned to City Planning by the Messenger Service upon completion of the delivery.
4. Each review agent may review and comment on the application and must respond within 14 days of receipt of plans and application documents delivered in Step 3 above. The review agents will be responsible for sending their individual comments to the following: 1.) the applicant; 2.) the applicant’s professionals, such as the applicant’s architects, engineers and attorneys; 3.) the Review Planner from the Division of City Planning assigned to the particular project.

5. The applicant may contact each Review Agent directly to address their individual comments. The applicant must contemporaneously provide the Review Planner with a copy of any and all correspondence sent to any Review Agent.

6. If any revisions are made to the development plans submitted under Step 3. as a result of comments from any Review Agent, the applicant must submit one (1) set per Review Agent of such revised plans, **bearing a clearly visible revision date**, full size, signed and clearly sealed, stapled and **FOLDED**, and placed in appropriately sized boxes, to the Review Planner for further distribution to the Review Agents by the Division of City Planning via the Messenger Service. Each time a revised plan is submitted to the Division of City Planning, it shall be accompanied by a cover letter listing all the changes and which review agent requested them, with all changes graphically called out by the use of “clouding” around the changed areas. **Drawings without revision dates will NOT be accepted and will be returned at the applicant’s expense.**

7. The Review Planner will determine if the application is “complete” based upon the content of the Review Agents’ comments, including those of the Review Planner. Once deemed complete, the applicant will be assigned a hearing date and a submission deadline by the Division of City Planning, and will be notified of such in writing and/or email. Upon notification, the applicant shall promptly submit the required number of signed and clearly sealed, stapled and **FOLDED** development plans to the Review Planner. The required number of sets of development plans to be submitted is as follows: a minimum of: fourteen (14) sets for a case before the Planning Board, or eleven (11) sets for a case before the Zoning Board of Adjustment.

8. The plans submitted in Number 7 above shall be the same plans that all Review Agents and the Review Planner had reviewed in their last round of review and comment letters. They shall be submitted to the Division of City Planning at least 10 days prior to the scheduled hearing date for a timely distribution.

9. If the plans submitted in Number 8 above are not submitted on time, your case will be carried to the next regular meeting of the Board, within the limits of the Municipal Land Use Law.

10. The Contact Information for the Review Agents is provided below.

# JERSEY CITY SEWERAGE AUTHORITY

## SEWER CONNECTION PERMIT INFORMATION

In accordance with the proposed Jersey City Sewerage Authority sewer connection permit system, the following specifications should be adhered to for new sewer connections:

1. New Direct Connections to clay, PVC, PE, RCP or Ductile Iron sewers:  
All house or building sewers must be connected to the Authority's sewer line, above horizontal center line of the pipe. This connection must be made by the use of a saddle which is securely fastened to the pipe.
2. New Direct Connection to Brick Sewers:  
New building laterals must be connected to the brick sewer main so that the end of each lateral is flush with the inside wall of the brick main, an exterior clamp holds the lateral in place and non-shrink concrete grout is used to fill the void between the lateral and the brick pipe for the width of the brick pipe wall. Upon completion, the inside profile of the brick pipe wall must be smooth with no projectors or voids.
3. New Direct Connections to PCCP Sewers:  
Will not be allowed without written consent from JCSA.
4. Jackhammers, sledgehammers, and other unsuitable machinery will not be used to make physical connections to sewer mains. Circular saws which are appropriately size or hand drills will be used to make the opening to receive the laterals. All debris will be removed and not allowed to fall into the pipe.
5. Upon completion of New Direct Connections, the Jersey City Sewerage Authority may televise the sewer lines for conformance to the site plan and these standards. The developer or owner will be notified to effectuate the necessary corrections, if needed. The Authority will request the Certificate of Occupancy (Co's) not be issued until corrections have been made to the satisfaction of the Authority.
6. House or building sewer connections which are six inches (6") or less in diameter and not permitted to connect into manholes, except in special cases where the manhole is redesigned and prior written approval is given by the Authority. New Connections which are eight inches (8") or greater in diameter should be connected to an existing or new manhole.
7. New connections to existing or proposed manholes where the new connection invert elevation is two feet (2') or greater above the existing sewer crown elevation must have an inside drop connection as per JCSA standard details. The reconstruction of channels and benches may be required.
8. All new connections to existing or new manholes must be constructed so that the new lateral crown elevation is equal to or greater than the crown elevation of the existing sewer. A drop connection may be required. The reconstruction of channels and benches may be required.

Contact Mark Lascavage at 432-1150 to obtain City standard and JCSA manhole, catch basin, and trench details.

Re: *Hudson County Planning Board  
Subdivision and Site Plan Application Form  
and Fee Schedule*

Dear Applicants:

Please be advised that the County Executive and Board of Chosen Freeholders have approved several documents which affect County Planning Board applications. On September 25, 2008 the Board of Chosen Freeholders approved Resolution Number 398-9-2008 adopting the 2008 Hudson County Master Plan Re-examination Report. On October 23, 2008 the Freeholder Board approved Resolution Number 461-10-2008 establishing the Hudson County Land Development Regulations for Smart Growth and Sustainable Development. Finally, on November 25, 2008 the Freeholder Board approved Resolution Number 511-11-2008 which revises the fee schedule for Subdivisions and Site Plans.

Applicants should be aware that the above documents place much greater emphasis on smart growth and sustainable development strategies for transit and pedestrian oriented development to reduce traffic congestion, as well as "green infrastructure" and low impact development practices to reduce stormwater runoff and eliminate non-point source pollution. It is highly recommended that all applicants incorporate these features into their Subdivisions and Site Plans.

Please complete the application form in its entirety. Applications which are not completely filled out may be deemed "incomplete" and returned to the applicant. Applicants shall submit (3) three sets of the notarized application form with original signatures. Applicants must submit (3) three sets of the Subdivision and/or Site Plans signed and sealed by a licensed professional architect, engineer or surveyor. One electronic set of plans shall be submitted on a CD (compact disk) in .PDF (Portable Document File) format.

All fees and escrow deposits must be submitted via certified check or money order along with the completed application to the Hudson County Division of Planning. Application fees for projects which are LEED (Leadership in Energy and Environmental Design) certified by the U.S. Green Building Council may be reduced or eliminated (see fee schedule for details). All residual and unused escrow deposit funds shall be returned to the applicant upon issuance of the c.o. (certificate of occupancy) by the municipality.

If you have any questions, please feel free to call this office any time.

Sincerely,

Stephen D. Marks, PP, AICP, CFM
